

## **OUR ENVIRONMENTAL POLICY**

We, PİMSA OTOMOTİV A.Ş., aim to ensure and develop experience and superior quality philosophy that we obtained in automotive sector, also for environment subject. With this awareness and desire,

- By using all natural resources productively,
- By minimizing negative effects we make on environment,
- By using environmentally friendly and recyclable materials in our all works,
- By reducing polyurethane wastes and ensuring recycling as much as possible,
- By increasing awareness regarding protecting environment via raising awareness of our employees, customers and subsidiary industrialists,
- By ensuring sustainable usage of resources in accordance with our context and carrying out activities to reduce the effects of climate change,
- By ensuring the protection of biodiversity and ecosystems,
- By constantly improving our all activities about environment,
- By considering Turkish Environmental Legislation and customer expectations about environment and beyond that, through global values we take maintaining our works and doing our share for a livable environment as principles.
